Publisher Correction to: Single tooth restoration in the maxillary esthetic zone using a one-piece ceramic implant with 1 year of follow-up: case series

Miren Vilor-Fernández¹, Ana-María García-De-La-Fuente^{1*} , Xabier Marichalar-Mendia², Ruth Estefanía-Fresco¹ and Luis-Antonio Aguirre-Zorzano¹

Publisher Correction to: *Int J Implant Dent* (2021) 7:26

<https://doi.org/10.1186/s40729-021-00308-z>

During the publication process of the original article [1] an error was made in the article alongside a pre-existing mathematical error.

As shown in the Result section: the number of lost implants was 2, which results in a rate of 6.25%, as indicated in the article itself.

However, the survival rate does not correspond to the real survival rate. Instead of a survival rate of 96.9%, it should appear a survival rate of 93.75%.

In the conclusion section, instead of “**The survival rate of the implants of our pilot study was 9.9%.**”, it should read: “**The survival rate of the implants of our pilot study was 93.75%.**”. This error was introduced during the publication process.

These errors were present in three locations:

1. In the **Results** and **Conclusion** subsection of the Abstract.
2. In the **Result** section of the article.
3. In the **Conclusion** section of the article.

The original article has been updated as this does not affect the conclusions. The publisher apologizes for the inconvenience caused to the authors and readers.
